NATURAL FEED SUPPLEMENT & GROWTH PROMOTER

Many Synthetic, antibiotic, feed supplement and growth promoters are available in the market to increase in Lactating animals which are not very safe. On continuous usage, cattle health is affected and milk from such animals is also harmful to human being. Such Antibiotic growth promoters (AGP) have been banned in almost all countries.

After 8 year of intensive research, a natural Herbal Extracts Composition along vital minerals and organic salts has been developed in house and presented as “ECOGOLD” BIOKSHEERA. Being natural the product is 100% safe. It is economically beneficial to the farmer and positive result can be seen in very short period of time. The product has not only been tested in leading laboratories but also on lactating animals for efficacy and safety since last 8 years. “ECOGOLD” BIOKSHEERA is currently only one Bio- Tech product in world, processed, blended and presented as safest and most beneficial animal nutritional supplement from Natural Source in the form of Energy molecules, based on ancient ayurvedic formula.

SALIENT FEATURES OF ‘ECOGOLD’ BIOKSHEERA

- An absolutely safe producr (with no side effects to the animal and humans)
- Has a Citrus flavor and well liked by the animals.
- Enhancing feed consumption and metabolisation.
- Produces extra milks, FAT and SNF (Brings out the natural productivity of the animals.)
- Highly beneficial to the dairy farmer.
- Is well accepted by modern scientists & veterinary doctors.
- Beneficial results can be achieved faster due to active energy molecular form.

‘ECOGOLD’ BIOKSHEERA COMPOSITION

Active energy molecular extracts are from the Indian medicinal herbs.....

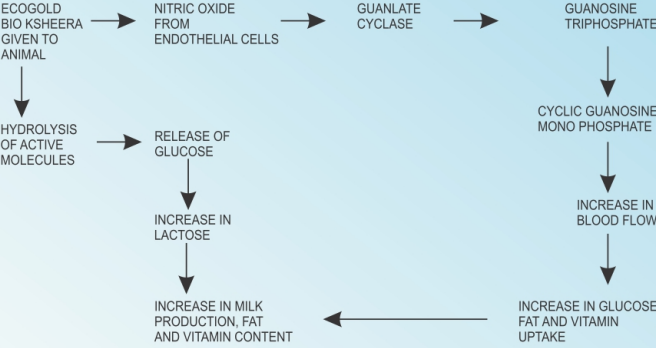

- Citrus aurantifolia
- Leptadaenia reticulate
- Ipomea mauritiana
- Hemidesmus indicus
- Asparagus racemosus
- Withania somnifera

All these herbs have been cited in Ancient Ayurveda and are thus very safe for consumption by lactating animals.

MODE OF ACTION

‘ECOGOLD’ BIOKSHEERA composition induces production of Nitric Oxide (NO) from endothelial cells of animal.

Schematic Representation of Mode Of Action of ‘ECOGOLD’ BIOKSHEERA within the Animal

BENEFITS OF ‘ECOGOLD’ BIOKSHEERA

- Increase Milk Yield (1.5 To 2.0 Liters Of Milk Per Day Per Cow).
- Increase Quality Of Milk (improves Fat From 3.5 To 4.0 Or 4.0 To 4.5).
- Improves Feed Conversion Ratio.
- The Heat Stress In The Animal Is Substantially Reduced.
- Overall Health Of The Animal Improves & Brings Shine To Their Skin.
- Sick Animals Become Well.
- Helps Animal To Attain Natural Heat Cycle.
- Natural Dewormaer / Antihelmentic.
- First Step Towards Organic Milk Production.
- Hormonal Levels Are Improved With Much Pregnancy Success Rate.
- Stimulates Immune Levels & Improves Energy Levels.
- Gives Good Nutrition To Pregnant Cows And Feotus.
- Helps To Avoid Abortion.
- Mother Cow And New Born Calf Are Both Healthy.
- Results Starts From 5th Day Onwards And Peak On 12th /14th Day.
- Beneficial Results Can Be Achieved Faster Due To Active Energy Molecular Form.
- Product Also Help In Increasing Weight Of All Animals, Sheeps, Goats, Pigs, Bulls & Turkey for Extra Meat Production.

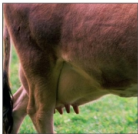

BENEFITS OF ‘ECOGOLD’ BIO KSHEERA

DIRECTION FOR USAGE

- Once daily along with evening feed only.
- Recommended continuous usage to ensure highly beneficial results and excellent health condition.

DOSAGE

- 30gms per baby animal.
- 60gms per animal cows, buffalos, camels, horse, sheep, goats, pigs, bulls, & turkeys.

PRECAUTIONS

- For Veterinary use only, not for human consumption.
- Keep in a cool dry & dark place.
- Some animals may loose motion due to sickness, old age, many pregnancies etc. then reduce dosage to half.

INFLUENCE OF FEEDING BIOKSHEERA
A HERBAL GALACTOGOGUE ON MILK PRODUCTION TRAITS
Dr. K. SARJAN RAO
Professor & Univ. Head Department of LPM, CVSc., Tirupati

RESULTS : BIOKSHEERA

A) Dairy Experimental Station

S. No.	Parameter	Control diet	Control diet + Supplementation	Per cent Increase
1	Voluntary feed intake (kg) per day per animal	2.0	2.4	20%
2	Total milk yield (kg) for six months lactation period	2866.4	4141.9	44.5%
3	Peak yield (kg)	3.6	4.46	24%
4	Time to reach peak yield (days)	35	18	-
5	Persistency	2.0	3.5	-
6	Milk fat yield (kg)	143.3	157.6	10%
7	SNF (kg)	257.9	283.6	10%
8	Total solids (kg)	386.9	425.5	10%

B) Farmers house holds

S. No.	Parameter	Control diet	Control diet + Supplementation	Per cent Increase
1	Voluntary feed intake (kg) per day per animal	2.0	2.4	20%
2	Total milk yield (kg) for six months lactation period	2584.6	4316.2	67%
3	Peak yield (kg)	3.0	4.47	49%
4	Time to reach peak yield (days)	40	24	-
5	Persistency	1.5	2.5	-
6	Milk fat yield (kg)	129.2	157.6	22%
7	SNF (kg)	232.6	283.7	22%
8	Total solids (kg)	348.9	425.6	22%
